

Weenie Beanies

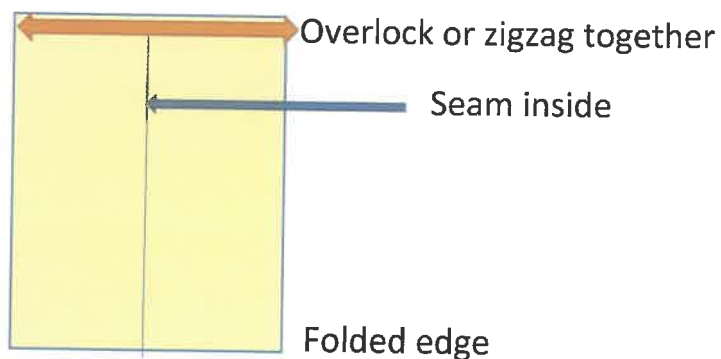

For preemie bubs

In interlock cut one 25cm square

Sew two sides together, forming a tube, with a small zig zag or overlocker, ensuring that the stretch goes around the tube you are sewing.

Fold in half with seam on inside

Sew or overlock the raw edges all together, the seam at centre back

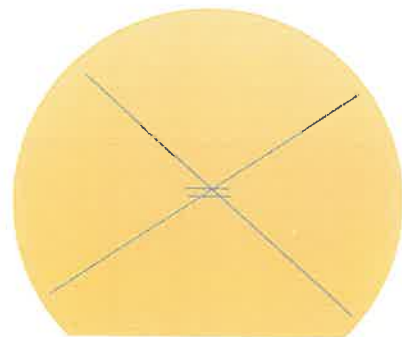

Turn out to the other side and pull corners to a point

Thread a needle with four stands of cotton and thread through one point then thread to the other point, secure a few times with stitches.

Then sew the middle of the two points onto the top of the hat, where the seam is.

Finished Hat

The crown of the hat
